Assel Kembay

(last updated: Nov-19-2024)

Contact Information

University of California, Santa Cruz, USA
E-mail: akembay@ucsc.edu
Links: Homepage, Google Scholar, LinkedIn

Research Interests

Brain-Inspired AI, Spiking Neural Networks, Computer Vision, Continual Learning, Knowledge Distillation, Interpretability of Deep Neural Networks and their visualization

Education

University of California, Santa Cruz, USA

Ph.D., Electrical and Computer Engineering — Sep 2023 - **expected grad. Jun 2027**
Advisor: Prof. Jason Eshraghian
Current GPA: 3.95/4.00

University of Science and Technology, Seoul, South Korea

M.S., AI - Robotics — Mar 2021 - Feb 2023
Thesis: *"Inversion of Spiking Neural Networks, with application to Knowledge Distillation"*
Advisor: Prof. Suhyun Kim
GPA: 4.43/4.50

C-DAC's Advanced Computing Training School, Pune, India

Postgraduate Diploma in Advanced Computing — Aug 2018 - Feb 2019

L.N. Gumilyov Eurasian National University (ENU), Astana, Kazakhstan

B.S. (summa cum laude), Mathematical and Computer Modeling — Sep 2014 - Jul 2018
GPA: 3.86/4.00

Research Experience

Research Assistant — Oct 2023 - Present
University of California, Santa Cruz, USA
Member of the Neuromorphic Computing Group
Research directions: Spiking Neural Networks, Knowledge Distillation, Continual Learning
Advisor: Prof. Jason Eshraghian

- Implementing Knowledge Distillation techniques to enable selective knowledge transfer in neural networks, using top-K guided specification on logits, feature and attention maps, resulting in improved previous state-of-the-art KD results by 1.47%.

Research Scientist Intern — Apr 2023 - Sep 2023
Korea University Medicine, Seoul, South Korea
Research topic: Wireless Brain Chip for Brain Computer Interface
Advisor: Prof. Il-Joo Cho

- Improved a wireless brain chip with a signal processing unit and communication module by implementing an algorithm to optimize data transfer.

Research Assistant — Sep 2020 - Mar 2023
Artificial Intelligence Research Group, Korea Institute of Science and Technology (KIST)
Research topic: Inversion of Spiking Neural Networks
Advisor: Prof. Suhyun Kim

- Developed inversion techniques for Spiking Neural Network models to enable data-free knowledge transfer using batch normalization statistics, facilitating efficient training of neuromorphic systems without original datasets.

Research Intern — Mar 2020 - Aug 2020
Computational Science Research Center, KIST
Advisor: Prof. Seungchul Kim

- Designed algorithms for material dimension determination and LDOS-map calculation, enhancing quantum dot characterization capabilities.

Research Assistant Dec 2019 - Jan 2020
Department of Mathematics, Nazarbayev University (NU), Astana, Kazakhstan
Project: Imaging in Seismic Exploration
Advisor: Durvudkhan Suragan, PhD

Research Assistant Mar 2018 - Oct 2019
Department of Computer and Software Engineering, ENU
Project: Development of algorithms and embedded software for determining the geoelectric section for geoinformation technology GPR

- Developed a non-iterative algorithm for precise electromagnetic wave source localization in GPR data interpretation using Finite Element Method (FEM), enabling accurate subsurface imaging and enhancing GPR data interpretation in noisy conditions.

Awards & Honors

Divisional MIP Fellowship Mar 2024
Baskin Engineering School, UC Santa Cruz ($18800)

2023 POSCO Asia Fellowship Jan 2023
POSCO TJ Park Foundation, S. Korea (3 years of tuition and a monthly stipend of 1 mln KRW)

KIST-KT&G Scholarship Foundation's Global Scholarship Dec 2021
KT&G Scholarship Foundation, S. Korea (1 mln KRW)

Sur – Place Konrad Adenauer Foundation Scholarship Apr 2019
Konrad Adenauer Foundation, Germany (academic scholarship ∼800 EUR)

Scholarship ITEC programme Aug 2018
Ministry of External Affairs, Government of India (including all costs and monthly stipend)

Presidential Scholarship Mar 2017
Foundation of the First President of the Republic of Kazakhstan

Award of High-quality Performance Jun 2017
Summer School on "Mathematical Methods in Science and Technology", NU

Merit-Based Scholarship 2014 - 2018
Dept. Mechanics and Mathematics, ENU (awarded to top students of the department, 7 times)

Professional Services

Reviewer
2024 *NeuroAI @ Neural Information Processing System (NeurIPS)*
2024 *APL Machine Learning*
2024 *IEEE International Symposium on Circuits and Systems* (ISCAS)

Technical skills

Computer proficiency: Linux user, competent at Python, SQL (MongoDB), Maple, Advanced Web Programming and Database Technologies, JavaScript, HTML, PyTorch.
SNN-related frameworks: snnTorch, SpikingJelly, Norse, Brian2.

Languages

Kazakh (native), English (fluent), Russian (advanced), Korean (TOPIK-II)
